

SPECIFICATIONS

WyChecks Specifications

Check Signing Features:

- Supports unlimited network printers through Wycom Enterprise hardware
- Provides centralized, secure laser check printing and/or check signing
- Built-in logical print server
- Browser-based log-in and administrator panel
- Able to archive non-negotiable .PDF check images for easy storage and retrieval
- Uses secure blank check stock (with MICR check printing option) or pre-printed check stock
- Automatically prints and signs checks in a single pass
- Allows up to 3 signatures per check
- Signature titles and backgrounds available
- Allows optional protected amount-only printing (when you do not want a signature)
- Supports unlimited accounts (e.g., share draft, loan, cashier's check, money order, accounts payable, purchase order, etc.)
- Allows audit count of signed checks, voided checks, or all checks
- Uses secure user log-in for enhanced security
- Suppresses signatures for checks exceeding pre-determined dollar amount
- Adds forgery-resistant protected graphic amount while printing
- Provides amount limits (e.g. add signature at amount, suppress signature at amount, VOID at amount)
- Produces manual check without a computer if your computer system is down
- Eliminates signature plates, rubber stamps and mechanical check signers
- Provides a simple upgrade path for dot matrix customers to allow for laser check printing

MICR Laser Check Printing included:

- Adds forms, graphics, logos, signatures and MICR information
- Able to archive non-negotiable .PDF check images for easy storage and retrieval
- .PDF image files can be indexed for import into most imaging platforms
- Operates with HP-compatible PCL5 laser printers
- Saves money by using blank secure check stock instead of pre-printed check stock
- Eliminates the need for separate pre-printed check stock for each bank account
- Prints a MICR line which meets ABA specifications (with MICR toner cartridge)
- Supports company and bank logos, forms, and graphics
- Can print check copies with "COPY" in place of signature and "NON-NEGOTIABLE" in MICR line
- Secure blank check stock can be pulled from alternate trays
- Prints check numbers (even for customers who do not send check numbers)
- Check numbers are always in sequence
- No checks to void when printer jams
- Autosense feature automatically recognizes which check form to print

WyChecks Specifications

Image Archiving included:

- Able to archive non-negotiable .PDF check images for easy storage and retrieval
- Converts data transparently as it's printed
- Works with MICR Laser Check Printing or Dot Matrix to Laser Conversion (dot matrix output not supported)
- Requires Windows 2000 (or greater) PC
- Data output must be PCL5 compatible

Compatibility:

- No computer hardware or software changes required
- Works with any HP-compatible laser printer supporting PCL5
- 10/100BaseT Ethernet
- Print server supports NetBIOS, LPR/LPD and Direct TCP (Raw 9100) networking protocols

Each WyChecks unit includes:

- 2 signatures
 - 2 check account/applications (e.g. share, loan, cashier's, accounts payable, etc.)
 - 1 print station license
 - 90-day factory warranty
 - MICR laser check printing
 - Dot matrix to laser conversion
- * Additional signatures, custom logo prefixes, applications, and network printing licenses available for an additional charge.
