

# WyReceipts Software

# Your Ultimate Receipt Solution!

EVER WISH your imaging software could take advantage of the newer, smaller and faster receipt printers and leave the hassle of keeping up with paper receipts behind? Then it's time to think "outside that old receipt box" with WyReceipts — the most comprehensive receipt printing and archival software solution on the market.

AN ALL-IN-ONE RESOURCE. Imagine, no more paper files to store and search through! With WyReceipts and your imaging software you can now use the latest printers for outputting receipts while copies are stored on your server as individual PDF documents. That means more freed up desk space and a big savings on paper. Plus, with WyReceipts each receipt can be indexed with time, date, customer account, teller account, signature capture, scanned checks and ID providing multiple search

No more need for filed hard copies. WyReceipts stores indexed receipt data as individual PDF documents.

options for future receipt retrieval and expanded report printing capabilities.

SEAMLESS INTEGRATION. WyReceipts works with your current imaging solution. No new software to learn! No computer downtime! Printing or searching for receipts is now just mouse clicks away. And like all Wycom products, WyReceipts not only supports your existing equipment, it also allows the flexibility of future equipment upgrades.

So, give Wycom a call today for your risk-free, 30-day trial. What have you got to lose... but those old paper receipts!
